Station 1203.

19 September 1953

Mr. Manley's suggestion of modifying Plan 6253 for Station 1203 is an excellent idea. Unfortunately the hardware has been ordered for the latest revision of Plan 6253. I am also informed that pipe No. 8 must be flexible in location in that if so desired, it can be returned to its original positions.

In view of the above, it is desired by Mr. Howell that the details of revised plan #1203-CH-3 be followed in the field.

Down Manley's letter
about the hardware was OK
but the hardware was not
available at the time of the
inspection. The hardware
was ordered and is being
delivered to the site. The
hardware is being inspected
and will be ready for use
in the field. The hardware
is being inspected and will
be ready for use in the field.
