David L. Narver, Jr. Assembly benches at Stations 50 and 60

August 18, 1953

The following letters are quoted in this action:

UCRL letter COL 106L dated August 18, 1953.

"The following additional facilities are required at stations 50 and 60:

- REPAIR BENCHES: Station 50 _____
- CONSTRUCTION BENCHES: Station 50 _____
- REPAIR BENCHES: Station 60 _____
- CONSTRUCTION BENCHES: Station 60 _____

Benches to be of rugged construction, six feet long 37" high, 2 feet 6 inches deep with 1/2" gosh board. Top to be covered with masonite. It is requested that these benches be in place by completion of the buildings.

The above facilities are for "E-1144."

LASL letter J-19458 dated September 1, 1953.

"Reference is made to UCRL letter COL 106L dated 18 August 1953.

It is requested that four benches of this size be furnished Task Unit 14. Plywood may be substituted for masonite top covering and the term "of rugged construction" may be defined as being capable of supporting approximately one hundred pounds."
