RE: STATIONS 101, 102 and 103 PROCUREMENT

DATE: June 9, 1953

The subject stations require Blast Doors, Dehumidification Units, Panels, Supply Fans and Air Filters. Construction of all three Stations is scheduled to start August 1, 1953.

R

Procurement should start at once on the critical items, particularly the blast doors and dehumidification units. No AME or B/M has yet been received for these items.
