Subject: Construction Required for Program 14

Dear Sir:

In the last paragraph of Lt. P. W. Self's letter J-17955 dated 8 May 1953, he inquired as to whether we would prefer clearing for Stations 1403.09, .10 and .11 or placing three alternate stations on the resf.

Our construction division has indicated they would prefer having the stations on land and do the necessary clearing, so we will design on that basis.

Very truly yours.
