It will be satisfactory to send Glade Barry to site TDY on March 1st to supervise triangulation surveys.

Erection of Bilby Towers, Station Cocks and layout of the base line at Site Tare will start this week.

We anticipate that the required party strength for the next operation will be five by April 15th, which will be adjusted as the program develops. Martin Curran will be the assistant to the head of the Survey Department. In addition to Curran, we will have a Senior Engineer at Tare and Gene.

We will put requisitions in process immediately for the following personnel to bring our strength up to five parties:

- 2 - Chief of Party (Pelcher will be transferred to Inspection when construction gets under way.)
- 1 - Instrument man.
- 2 - Chainmen.
