In your reply Refer to file no. 2.4/U

Holmes & Narver, Inc. (Attn: Mr. F. A. Mane) 828 South Figueroa Street Los Angeles 17. Celifornia

Subject: Test of four lover types

Gentlemen

Our telegram in reply to the letter of January 2, 1953. signed by your Furchasing Agent, Mr. F. Holland, is amplified as follows:

At the present time we have requests from Government agencies for tests of base-line tapes that would normally require our attention for three months or more before we could begin any new tests of that character. Your letter, however, indicates that the test of your four tapes may have sufficient priority to put it shead of most of the other tests. It will be necessary that the Atomic Energy Commission establish the priority indicated in your letter. We would expect you to contact at once that Commission asking them to write us giving essential information

The estimate of six weeks given in the telegram is an estimate only and not a commitment, as circumstances may arise making it impossible to meet our estimate. It is even possible that a request from a Defense agency might necessitate a postponement of this test.

ery truly yours,

Thef, length Section
