FOR YOUR INFORMATION

N.F. BARR

Dear Dr. Barr:

Enclosed is a copy of "Notes and Observations On the Pacific Cratering Experiment (PACE) Program Hearings On Ujilang Atoll, March 26-28, 1973."

Although AEC has maintained a status of separation from the PACE Program, despite the juxtaposition of the AEC Radiological Survey and the PACE operations on Enewetak, the attitudes of the people show a lack of separation in their conceptualization of what has happened and is planned for their atoll.

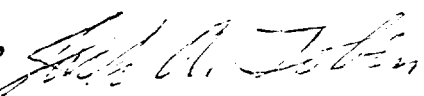

For this reason, if for no other, I feel that the enclosed notes will be of interest to you and to your organization.

I mailed you a copy of my final report for the survey last week when I sent Dr. Nervik his copy. I also answered Dr. Seymour's letter, enclosed addressed to you, earlier. Have you received them? I have not received an acknowledgement from Dr. Nervik, nor from Dr. Seymour.

I will leave next Saturday for Honolulu and will not return here until May 28 or thereabouts. Any correspondence for this period may be mailed to me c/o Mr. George F. Howard, 560 Ulumalu Street, Kailua, Hawaii 96734.

I look forward to meeting you in Livermore at the meeting.

Sincerely,

Jack A. Tobin
