July 10, 1969

Dr. Glenn T. Seaborg, Chairman  
Atomic Energy Commission  
Washington, D.C.

Dear Dr. Seaborg:

Enclosed is a letter I have received from a constituent regarding the return of the people to Bikini. He is concerned that the program to return these people to their island is laboring under several difficulties.

I would very much appreciate receiving any comments you might have regarding his letter.

Sincerely,

*Lloyd Meeds*
