The final AEC review-screening of "Operation Greenhouse," a 26-minute color motion picture with sound, proposed for public release, will be held for the convenience of the Commissioners and Staff at 11:15 A.M., this Friday, March 7, at Projection Room 1702, Main Navy Building.

The picture, which was reviewed and approved by the Commission on December 10, 1951, has been color-corrected since the approval-screening. It is now ready to be submitted to the Film Coordinator of the Executive Office of the White House for decision for possible public release through a theatrical distributor chosen by the motion picture industry.

Navy's facilities are being used instead of Room 213 to take advantage of Navy's tandem projectors and larger seating capacity.
