FEDERAL CIVIL DEFENSE ADMINISTRATION
Washington 25, D. C.

August 14, 1953

Admiral Lewis Strauss
Chairman, Atomic Energy Commission
Washington 25, D. C.

My dear Admiral:

I know you will recall our conversation on the Pacific Test film and the prospects of a public release on it this Fall.

I believe that it was your suggestion that our staffs might work together on the film and that our agencies sponsor it jointly for public showing. We are very much interested in cooperating with you in any way possible because the film has great public education value.

We would be pleased to hear that we can actively join with you on this project.

Sincerely,

/s/Val Peterson
