MEMORANDUM FOR CHAIRMAN GORDON DEAN

Subject: Suggested Names for Open Shot

Since it has been decided to have a large number on non "Q" cleared observers at one of the shots in the coming test series and since, therefore, such observation will have no security significance, I recommend that we capitalize on this opportunity by inviting a number of foreigners whose enthusiasm and good will has direct bearing on our raw materials receipts. I have in mind the following:

Governor Iyckmans
Ambassador Silvercrays
E. Sengier
H. Robiliart
C. D. Howe
Dr. McKenzie

Ambassador Jooste
J. H. Viljoen
Ambassador Spender
Ambassador Makins
Sir Christopher Steel

To implement my earlier recommendation as to the need for "orientation" of top level American industrialists and business men, I also recommend that a group of say twenty-five men of this category be invited. Examples are:

Homer of Bethlehem Steel
Thomas of Monsanto Chemical
Wes McAfee
Con Kelley of Anaconda
Ware of International Nickel
Curtice of General Motors
Henry Ford
Haggerty of Metropolitan Life
Kox of Kennecott
Anton Gray
Ormond E. Hunt
Philip Sporn
Walker Cisler
Abrams of Standard Oil
