7. Department of State Request to Advise United Kingdom and  
Canada of GREENHOUSE Schedule

Mr. Boyer advised that Mr. Gordon Arneson of the State Department had asked for Commission approval to meet the request of U.K. and Canadian representatives for information as to the schedule of shots during operation GREENHOUSE in order that they be prepared to make atmosphere radioactivity measurements. It was recalled that notification to the U.K. and Canada during SANDSTONE tests had been made only a few days in advance of specific shots and Mr. Dean suggested that similar arrangements be made for the GREENHOUSE tests.
