-AEC 153/35 - "PRESS CONFERENCE ON OPERATION GREENHOUSE" SUBJECT:

409158

SYMBOL: GMC:JGB

We note that the report on the press conference was issued as unclassified. In view of the fact that certain last minute changes were made by this office, and, we understand, by the Department of Defense, we believe the document should have been classified at least "For Oficial Use Only" or preferably "Confidential". It seems to us that on controversial press releases it might be well to run all versions "Confidential" until the last version is run off for distribution.
