3. AEC 9/3 - Allocation of Commission Observer Space for Operation Sandstone

Under consideration was a report by the Director of Military Application concerning allocation of thirty spaces for Atomic Energy Commission observers at Operation Sandstone. It was pointed out that in view of the uncertainty as to the requirements of some sub-groups, no firm allocation of spaces could be made at present, but that the paper under discussion presented the working estimate of the staff. The Commission:

- a. NOTED the proposed allocation as an estimate of the probable assignment of Atomic Energy Commission observer spaces;
- b. AUTHORIZED dispatch by the General Manager of letters, such as those in Appendices "A", and "B"

of AEC 9/3, to the GAC and the Director of Santa Fe Operations respectively.
