MEMORANDUM

TO: Commissioners and General Manager
FROM: T. O. Jones, Assistant Secretary
SUBJECT: Showing of Eniwetok Film

Mr. Trapnell has advised us as follows:

"Early in the spring the first footage proposed for an unclassified film on the Eniwetok test were reviewed in Washington, with a script. The footage has now been cut and edited and the script has been completely overhauled in accordance with the views of the Chairman and several staff members who saw the film.

"Representatives of the Look-Out-Mountain Laboratory, which prepared the film, are now in Washington with the revised film and a new script. The Division of Military Application and the Public and Technical Information Service recommend that this footage and the script be reviewed by the Commissioners."

A showing of this film for the Commissioners has been scheduled for 11:30 a.m., Friday, July 22, 1949, in Room 213.
