Military Application  
Roy B. Snapp, Secretary to the Commission

May 16, 1949

REPORT OF SCIENTIFIC DIRECTOR, OPERATION SANDSTONE

1. At Meeting 268 on May 11, 1949, Dr. Darol K. Froman presented to the Commission the "Scientific Director's Report on Atomic Weapon Tests at Eniwetok, 1948". The Commission:

Received the Scientific Director's Report.

2. During the discussion of the Scientific Director's report, Mr. Lilienthal suggested that the record supporting the recommendation of AEC 207 be supplemented by an explanation of how the success in predicting the performance of models tested at Eniwetok verified the methods for estimating the performance of the recently approved Fox Weapon. We would appreciate being advised of how you propose to respond to the Chairman's request, and we will be glad to assist as by circulating another paper in the AEC 207 series.
