Report of Scientific Director for Operation Sandstone

Dr. Darol K. Froman, Scientific Director for Operation Sand-

268th AEC
Meeting
5-11-49

stone, presented to the Commission the "Scientific Director's Report on Atomic Weapons Tests at Eniwetok, 1948." He commented at some length on the organization of the tests and ways of improving the organization for the forthcoming tests, on the measurements and analyses carried out in connection with Operation Sandstone, and on the results of scientific study of the data accumulated during the tests. The Commission:
