Boston 16, Massachusetts

Attention: Mr. John R. Coffin

Gentlemen:

The Atomic Energy Commission was particularly fortunate to have your organization participate in the preparation for the 1948 atomic weapon test program at Eniwetok Atoll.

The gratifying scientific results obtained at Eniwetok were due in part to the efficient design and engineering of technical installations by your organization. Mr. M. S. Warchal made a particularly significant contribution by his work in the field.

Please express the Commission's appreciation to all members of your organization who were connected with this project.

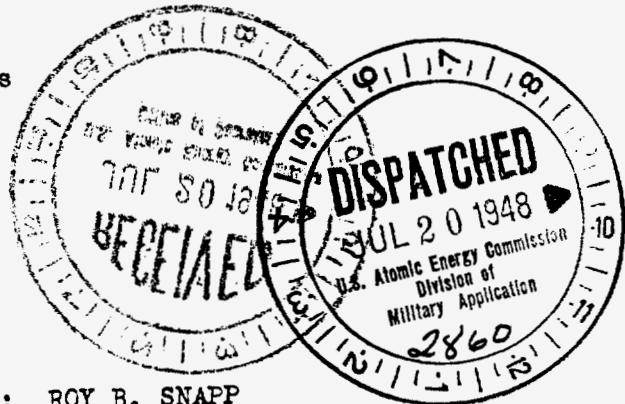

Sincerely yours,
