Dear Mr. Zadina:

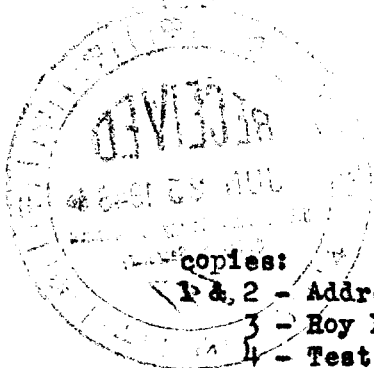

The President has requested the Atomic Energy Commission to convey his commendation to the scientific personnel responsible for the success of the 1948 atomic weapon test program at Eniwetok Atoll.

Your work as a theoretical physicist with the Commission's Proving Ground Group was an outstanding contribution to the success of the test program. Your many brilliant suggestions were of invaluable assistance in the interpretation of scientific results. Your competence as a physicist was demonstrated by your very efficient completion of many complicated computations.

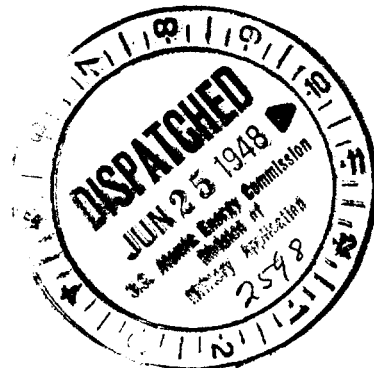

You personally have rendered the nation an outstanding service and it is my privilege to convey to you, for the Commission, the President's commendation.

Sincerely yours,

James McCormack, Jr.
Brigadier General, AUS
Director of Military Application
