Dear Mr. Mullaney:

The President has requested the Atomic Energy Commission to convey his commendation to the scientific personnel responsible for the success of the 1948 atomic weapon test program at Eniwetok Atoll.

Your work and the work of the theoretical physicists in your group at Eniwetok was an outstanding contribution to the success of the test program. Your broad understanding of the scientific problems was invaluable in the planning of experiments and in the interpretation and correlation of the results of the various test programs.

You personally have rendered the nation an outstanding service and it is my privilege to convey to you, for the Commission, the President's commendation.

Sincerely yours,
