Dear Dr. Nereson:

The President has requested the Atomic Energy Commission to convey his commendation to the scientific personnel responsible for the success of the 1948 atomic weapon test program at Eniwetok Atoll.

Your work in the field of nuclear reaction experiments was a significant contribution to the success of the test program. Your competence as a nuclear physicist was notably demonstrated by the excellent results obtained in gamma-ray measurements.

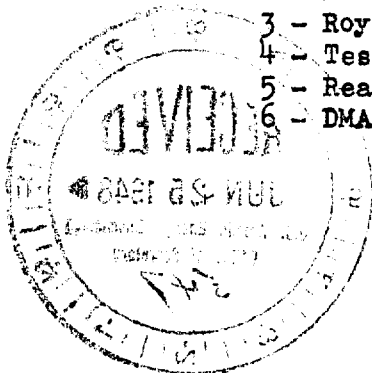

You personally have rendered the nation an outstanding service and it is my privilege to convey to you, for the Commission, the President's commendation.

Sincerely yours,
