between the U.S. and the Marshallese, competition between the lawyers for the Marshallese clients, antagonism towards the U.S. government, anti-nuclear attitudes, antagonism among the Marshallese, etc.

Our Program Plan was praised by most of these groups with the exception of Gerry and his colleagues who claimed the plan did not assure all views about radiation effects would be given the Marshallese--only the U.S. government position. Also, three officials of the Marshallese government complained because our visit to Majuro

coincided with their absences, so we didn't have the benefit of their views.

Mrs. Clusen was very pleased with our Program Plan and by Carl's presentation.

Whether PNL will be asked to implement the plan depends upon:  
(1) DOI accepting the plan and sending it to Congress, (2) Congress appropriating funds, (3) DOI asking DOE to assure responsibility for the education program and (4) DOE turning to PNL.

Carl Unruh, Irene Hays, Ray Baalman and Barbara Melber deserve special praise for the quality of their work and its timeliness and for their patience. We had a very short time to prepare the Program Plan and also had to make many modifications to accommodate all of the political considerations. I am especially appreciative of their efforts and also of the extraordinary effort of Connie Bennett in getting the numerous drafts of the plan typed and of Gene Wattenburger's staff in getting the viewgraphs prepared.
