	NAME:

3. A cut version from which highly sensitive information has been eliminated will be prepared for normal indoctrination and training use.

4. In the production of a cut version, Department of Defense representatives will consult with your staff in determining the highly sensitive deletions to be made from the current film.

5. Any prints of the current film already completed (but not distributed under the above policy) will be held at Lookout Mountain Laboratory for replacement of damaged film, or possible use in production of the cut version.
